834568519@qq.com;
luckyewen@msn.com;

You received this email is because you registered a Python class in Huaxia Chinese school. Welcome to Huaxia Chinese school Python class. In order to save some class time, we need parent's help to download and install the following softwares which will be used in our class.

1. Visual Studio Code (for programming)
2. Python Interpreter (for running and debugging Python)
3. Git (for download teacher's sample code and turn in homework)

It is better that every student has two monitors, one for showing teacher's screen, one for writing program by student. One monitor will really hard to follow the class activities. One laptop for programming and one ipad for showing teacher's screen is acceptable.

Zoom meeting ID: 4646944443
